

Setting Up A Bitnami LAMP Stack

Connecting to MySQL

1: Create SSH Tunnel

```
ssh -N -L 8888:127.0.0.1:80 -i KEYFILE bitnami@SERVER-IP
```

For example:

```
ssh -N -L 8888:127.0.0.1:80 -i ~/.ssh/lamp-demo  
bitnami@35.192.208.243
```

2: Open PHPMyAdmin in a browser

```
http://127.0.0.1:8888/phpmyadmin
```
